SUMMARY

As a double major in Software Engineering and Genetic & Bioengineering, I approach problems with a multidisciplinary mindset. I have hands on experience in object oriented programming and database management, aiming to build a career at the intersection of technology and life sciences.

PROJECTS

E-commerce Project, Phoenixia Soft (Entrepreneurial project with friends) May 2025 - Ongoing

- Developed an e-commerce app using **Spring Boot**, **JPA**, and **Hibernate with MySQL**, applying **MVC** and **SOLID** principles to build secure **REST APIs** and tested them with **Postman**.

To-Do App Project September 2025 - September 2025

- Developed a Todo app backend with **Spring Boot**, using **RESTful CRUD** operations and **JWT** for secure **authentication and authorization**.

Test-Framework Project, School Project April 2025 - May 2025

- Developed a Java app using **SOLID** principles and **design patterns** (Singleton, Command, Composite, Facade, Factory, Iterator) with clean, object-oriented, and maintainable code.

EXPERIENCE

Backend Developer Intern, Disti Bilisim August 2025 - September 2025

- Worked on enterprise IT monitoring with **Motadata**, using **Python** and **SQL** to automate log validation, perform **system testing**, and improve data consistency in **agile** team workflows.

Mobile Developer Intern, Research Ecosystems June 2025 - July 2025

- Developed a **chatbot app** using **Flutter** and **GetX**, applying **MVC** and **SOLID** principles to build secure **REST APIs** and **pixel-perfect**, maintainable designs.

Project Management Intern, Sca Social April 2025 - May 2025

- Gained skills in **project management**, **AI**, **data science**, and **IT law**; supported planning with Gantt charts and project documents.

EDUCATION

Bachelor of Science in Software Engineering Sep 2022-May 2026

İzmir University of Economics **GPA: 3.24**

Bachelor of Science in Genetics and Bioengineering March 2024-May 2027

İzmir University of Economics **GPA: 3.43**

ADDITIONAL INFORMATION

- Programming Languages:** Java(advanced), Python, Dart
- Frameworks & Tools:** Spring Boot, JPA, Hibernate ORM, REST API, Git, Postman
- Software Development:** MVC architecture, SOLID principles, Agile, Design Patterns
- Database Management:** SQL, MySQL, PostgreSQL
- Languages:** English(Upper Intermediate), Turkish
- Certifications:** Environmental Impacts of AI Systems, Energy-Efficient Software Development

VOLUNTEERING

President of Social Responsibility Club - İzmir University of Economics - 2024 to present

- Led a team of 20+ students in **planning** and **executing** social responsibility projects areas like educational and awareness.
- Strengthened skills in **leadership**, **event management**, **collaboration**, and **community participation**.
