SUMMARY

As a double major in Software Engineering and Genetic & Bioengineering, I approach problems with a multidisciplinary mindset. I have hands on experience in object oriented programming and database management, aiming to build a career at the intersection of technology and life sciences.

EXPERIENCE

Backend Developer Intern

August 2025 - September 2025, Ankara, Turkey

Disti Bilisim

- Worked on enterprise IT monitoring with **Motadata**, using Python and SQL to automate log validation, perform system testing, and improve data consistency in **agile** team workflows.

Mobile Developer Intern

Jun 2025 - July 2025, Izmir, Turkey

Research Ecosystems

- Developed a chatbot app using **Flutter** and **GetX**, applying **MVC and SOLID** principles to build secure **REST APIs** and **pixel-perfect**, maintainable designs.

Project Management Intern

April 2025 - May 2025, Remote

Sca Social

- Gained skills in **project management**, **AI**, **data science**, and **IT law**; supported planning with **Gantt charts** and project documents.

PROJECTS

Teklifs (E-commerce Project), Phoenixia Soft (Entrepreneurial project with friends)

- May 2025 - Present
- Developed a scalable digital auction backend architecture utilizing **Spring Boot** and **MySQL**, focusing on efficient data persistence and relational mapping. Integrated **Meilisearch** to provide high-performance, typo-tolerant search capabilities. Streamlined application deployment using **Docker** and adhered to **SOLID principles** to ensure code modularity and long-term maintainability.

To-Do App

github.com/MehmetSakirSeker/Spring-Boot-ToDoApp

- Developed a Todo app backend with **Spring Boot**, using **RESTful CRUD** operations and **JWT** for secure authentication and authorization.

Test-Framework, School Project

github.com/MehmetSakirSeker/TestManagementFramework

- Developed a simulation of Java Test framework using **SOLID** principles and **design patterns** (Singleton, Command, Composite, Facade, Factory, Iterator) with clean, object-oriented, and maintainable code.

EDUCATION

B.Sc. in Software Engineering

2022 - 2026

Izmir University of Economics • GPA: 3.30/4.0

B.Sc. in Genetics and Bioengineering (Double Major)

2024 - 2027

Izmir University of Economics • GPA: 3.57/4.0

SKILLS

Programming Languages: Java, Python, Dart

Frameworks & Tools: Spring Boot, JPA, Hibernate ORM, REST API, Git, Postman, Docker, Kafka

Software Development: MVC, SOLID principles, Agile, Design Patterns

Database Management: MySQL, PostgreSQL

LANGUAGES

English **Intermediate** German **Beginner** Turkish **Native**

VOLUNTEERING

President of Social Responsibility Club - Izmir University of Economics - 2024 to present

- Led a team of 20+ students in **planning** and **executing** social responsibility projects areas like educational and awareness.
- Strengthened skills in **leadership**, **event management**, **collaboration**, and **community participation**.
